

# Exposition Phase 2 Survey

(One Per Household)

*2* We want Expo Light Rail Phase 2 to continue and stay on Venice Blvd  
~~I want Expo Light Rail Phase 2 to continue on Exposition~~

~~I want Expo Light Rail Phase 2 to continue on Venice to Sepulveda~~

IF it continues on Expo it must be below grade with the following mitigations addressed:

~~Soundwalls - (minimum of \_\_\_' in height)~~

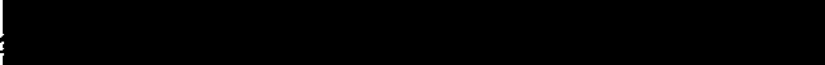

~~Vibration -- (NO vibration whatsoever)~~

~~Noise -- (Decibel to be no more than \_\_\_)~~

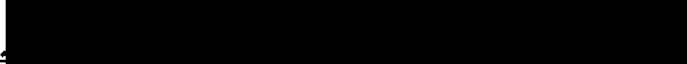

~~Residential streets within one block in any direction of Light Rail Stations qualify for permit parking~~

Subterranean parking and maintenance at the Light Rail Stations

*Venice Blvd is a high density street, so many more people  
Other: would have access to the train! There is a right-a-way on Venice Blvd. If you go to the City's Zone Information and map access systems, you will see it running as a green strip down Venice. Nowadays the old Pacific Electric right-a-way is just part of the street. Look at Venice Blvd + see how wide it is and how much the north side is parking. All that expanse is city property and could and should be used for Expo Light rail.*

I want Expo Light Rail Phase 2 to continue on Exposition—NO!!!!!!!!!!

I want Expo Light Rail Phase 2 to continue on Venice to Sepulveda

*IF* it continues on Expo it must be below grade with the following mitigations addressed:

Soundwalls - (minimum of \_\_\_' in height)

Vibration – (NO vibration whatsoever)

Noise – (Decibel to be no more than \_\_\_)

Residential streets within one block in any direction of Light Rail Stations qualify for permit parking

Subterranean parking and maintenance at the Light Rail Stations

Other:  I would like to suggest my wish that this area in exposition near Sepulveda which used to be a rail track to be converted into a park where people can come and rest...that would be the best use of this barren area on exposition blvd between Sepulveda and westwood....would this be at all possible???

I want Expo Light Rail Phase 2 to continue on Venice to Sepulveda

IF it continues on Expo it must be below grade with the following mitigations addressed:

- Soundwalls - (minimum of 10 ' in height) *I'm NOT SURE IF THAT IS SUFFICIENT. I NEED TO ALL OF THIS.*
- Vibration - (NO vibration whatsoever)
- Noise - (Decibel to be no more than ?) *SOMETHING TO REDUCE IT*
- Residential streets within ~~one~~ two block in any direction of Light Rail Stations qualify for permit parking
- Subterranean parking and maintenance at the Light Rail Stations
